** BRAZIL [and non]. 18150.13 USB, August 13 at 0040, PY5AMF calling CQ with lots of background noise, strange fonetik for M sounds like ``Mikey``, then working KC3VTF in PA quickly, and calling CQ for Northy Dakota, Wisconsin. And other stations, lots of co-channel talkovers. QRZ.com:
``PY5AMF Brazil flag Brazil, (MAR) AMÉLIO ALVES DE MARINS FILHO, RUA SEZINO RAMOS 2097, GUARAGUAÇU - PONTAL DO PARANÁ, PR 83255974, Brazil``
``KC3VTF USA flag USA, Michael Pentimall, 322 Gilmore Street, Folsom, PA 19033, USA`` (Glenn Hauser, OK, WOR)

** CANADA. 18145 USB, Aug 13 at 0038, VE7WJ calling CQ 17. QRZ.com:
``VE7WJ Canada flag Canada, Allan Campbell Ross, 790 WEST QUEENS ROAD, NORTH VANCOUVER, BC V7N 2L6, Canada`` (Glenn Hauser, OK, WOR)

** CUBA. 4765 & 5025, Aug 9 at 0129, both Progreso & Rebelde are OFF. Somethings always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, Aug 13 at 0627, JBA carrier vs HSNL. What`s left of R. Rebelde, must be very underpowered (Glenn Hauser, OK, WOR)

** CUBA. 13780, Aug 9 at 2202, RHC Spanish S9+10 but undermodulated (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 10 at 2219, RHC is S9/+10 and very suptorted, unreadable; and 13780 is off. Likewise Aug 11 at 2208, but 15230 only S5/S8 direct. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Aug 12 at 2207, this RHC not off the air for a change, but in Portuguese, with continuous undertalk in Spanish - not voice-over translation but must be mixture of two language services. Portuguese at 2200 is supposedly on 15230 but it`s off today and when I have been able to make out any suptorted modulation it`s been in Spanish. Somethings very wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Aug 13, 2025 at 2124, Fidel speech, ``Viva la Revolución Cubana``, on his 99th birthday of Aug 13, 1926, only in Spanish this time; first checked 15230 which was S9+10/20 but suptorted unreadable. Congrats! (Glenn Hauser, OK, WOR)

** GERMANY. 9670, Sun Aug 9 at 1702, `From the Isle of Music` via Channel 292, Cuban jazz, aimed eastward. No good into UTwente or Germany SDRs, and only Russian which gets it is Tambov, but noisy S6/S7, too poor too keep listening, sorry. At this time I can get perfect webcast from WYSU with `Pipedreams` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6935 USB, Aug 13 at 2158, pirate music earlier in daytime than I would expect, S7/S9 direct. Then talking about Seattle Sam? turn gain down, RF getting into microphone circuit. Sings la-la-la, do-re-mi etc.; country cruisers? and shredded show, Brad Paisley? 2216 still music. These say it`s Thunder Chicken Radio: https://www.hfunderground.com/board/index.php/topic,148645.0.html (Glenn Hauser, OK, WOR)

** OKLAHOMA. 250.0 kHz, Aug 9 at 2205, JBA carrier, but no beacons listed anywhere near close enough for daytime. Finally conclude it`s a mixing product, more likely receiver than transmitters, between 1640 KZLS and 1390 KCRC Enid, which are siblings, 250 kHz apart! But at widely divergent sites (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 640, Aug 11 at 1403 UT and later, dead air from KWPN Moore - is with ESPN, ``Sports Animal`` like 930 WKY and 98.1 WWLS, whose ID is often heard on both. Not sure to what extent these three

be identically programming stupid sports talk. 640 was reported recently to have resumed full power 5/1 kW after an STA; NRC DX News Aug 5: ``Termination of STAs: 640 KWPN OK Moore – Back to licensed operations July 12; STA for low power moot.`` Remodulating at next check after 1600, and not // 98.1. Even at low power it blocked KFI and anything else. 640 was originally OK`s most worthwhile AM channel, WNAD Norman, early `public` radio at OU; eventually replaced by KGOU 106.3 not full power and a few inadequate relays, not including Enid (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 780, Aug 12 at 0640 UT, trying to hear `Stardate` on WBBM, but QRM from classic rock music. I bet it`s KSPI Stillwater OK, 250-watt daytimer which has cheated before. DF chex to ESE from here. Yes! At 0700 ID for ``Pete 94.3`` KSPI Stillwater. That`s the politically incorrect OSU mascot, ``Pistol Pete`` suggesting firearms are welcome on campus for the next mass shooting incident (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680v, Aug 13 at 0035 UT, Virtual DJ Radio, music with a very unstable carrier as JBA at home, offtuned in USB, while it sounds OK on the AM caradio when I am near it. Also same earlier in afternoon before there would be any skywave QRM (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 87.9, Aug 11 circa 2050 UT, dead air in $tereo from LP transmitter somewhere in my neighborhood, idle RF feeder? Rarely have heard any modulation on it but sometimes (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5, Aug 11 circa 2030 UT, very low power pirate/part 15 with country music, stereo pilot, undermodulated and hum, still active, audible only and barely overcoming real distant Okies, within a few blox of intersexion of S Cleveland and W OKGarriott in Enid (Glenn Hauser, OK, WOR)

** SPAIN. Re token English from SNR to become even more token, here is exactly what Marilyn Quintana says at 2205 UT Aug 6 on 17715, 15520, 15390; 15500 for N America still off:

``As of Monday the first of September, a new season begins for the English language broadcast of Radio Exterior, bringing with it a few changes. From that date, we will broadcast only once a week on Wednesdays at 10 AM UTC. We remind listeners that you can listen to our programs any time of the day on the internet, mobile device app, and digital terrestrial television and by satellite. For more information you can visit our website at
http://www.rtve.es
then clicking on the top radio, and then Radio Exterior. You can also get in touch with us via email at the address english@rtve.es``

She definitely said 10 AM, a time when SW is not currently on air; Stephen Luce and I wonder if possibly meant to be 10 PM, the current time of 2200 UT (Glenn Hauser, OK, WORLD OF RADIO 2307)

** SPAIN. 15500 & 15520 both off the air, Fri Aug 8 at 2200 for token English from SNR. Into UTwente, 15389.991+ is suffici but 17715.012 S9+25/35. At 2203 check same at Knoxville SDR: 15390 S5/S7 and 17715 S7/S9. After news, 2205 feature opens with ``Here Comes the Sun``, heatwave, interview about how the cool Círculo de Bellas Artes in Madrid is a climate refuge (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 15520, Sat Aug 9 at 2159, non-English REE still missing from these two, but active on 15390 & 17715 only (Glenn Hauser, OK, WOR)

** SPAIN. 15390 JBA carrier, 17715 S9+10/20, Sun Aug 10 at 2220, REE into UTwente, and still missing from 15500 & 15520. Somethings no

good at Noblejas (Glenn Hauser, OK, WOR)

** SPAIN. 15520, Mon Aug 11 at 2159, this SNR is back on in time for token English after accurate timesignal 2200. Also 15390 and S9+20/30 on 17715 but 15500 for NAm still AWOL. Preview feature to be about 250th anniversary of American Revolution and how Spain supported. 2201 news leads with UN Security Council, except USA, condemning Israel`s plan to take over Gaza completely (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Aug 12 at 2158, NAm frequency still AWOL, but 15390, 15520 and best 17715 are on for the 2200 Emisión Sefarad, almost Spanish, no English on Tuesdays (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 15520 are off again, Wed Aug 13 at 2200, but token English from SNR is S9+20/30 direct on 17715 and audible on 15390; starts about the Canary minors/miners problem; 2205 about a Formula One racetrack under construxion 24/7 in Madrid, bothering the neighbors, 5.5 km long to make Madrid a racing capital (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010, Aug 8 at 2159, VOT not off the air, S9+45 into UTwente; 2200 s/on as if it`s 1230 on 17620: something`s always awry at Ankara. Too busy with Spain and TV news to monitor much further. Also audible into Knoxville SDR, but heavy ACI from 11780 Brazil. 2249 into UTwente, TRTVOTVorld.com promo, music; 2254 ``always-by-your-side`` promo, s/off as if it`s the 1230. 2255 first notes of IS only twice before chop about 2255.6* (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11785, Sat Aug 9 at 2157, talk rather than IS, maybe wrong feed, Turkish? 2158 switch to VOT IS & English IDs, S9+10/20 direct. Roughly equal to 11780 Brasil. No time to listen further but not off the air this time (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019, Sun Aug 10 at 1651, VOT S9+15/25 into UTwente, Cemre starting `Letterbox` with comment about sunbathing, hot season; slim reports, short show: 1) Jayanta Chakraborty, New Delhi - as almost every week. 2) --??, Penang, Malaysia. 3) Anatoly Klepov, ed. of RUS`-DX, wants QSL for August. 4) --??, Lithuania, heard 17615, which must have been Tatar at 1000-1030 per EiBi. 5) finally, --??, Poland. 1701 ``that is all``, 1702 theme (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010-, Sun Aug 10 at 2222, VOT English not off the air, S9+10/20 in `Letterbox` which I already monitored on the 1630 broadcast. 2247 into UTwente when measured, S9+35/45 music. 2253 s/off as if 17620 at 1230, awry at Ankara, 2254 IS to 2256* off just in time to avoid restart in extraneous German (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, Aug 11 at 2158, VOT IS & ID, S9+10/20 direct. At 2233 into UTwente when measured, S9+50 in music. 2253 s/off as if 17620 at 1230, awry at Ankara. 2254 IS first notes once and chop 2254.5*, no finesse. Look, the ~55 minutes has lots of music fill, so they could certainly have time to, at least occasionally, at sign-off, mention *all* the few English times and frequencies; obviously it would be *too much trouble* to edit each playback to refer to the axual time and frequency of that very broadcast (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Aug 12 at 2157, 2208 chex, VOT English not on the air direct nor 2225 into UTwente. BUT, not checked until 2229, *is* on accidentalternate 9875.003 into UTwente, S9+20/25, 2230 segment about inventions, then mostly music, 2246 ``always-by-your-side`` promo, 2251 multi-lingual ID filler reel. 2254 s/off as if it`s 17620 at 1230. 2254.7 IS, 2256 re-start IS with German IDs; 2300 timesignal 3 seconds slow, and open German, until final chopoff at 2304*,

uncovering something else on 9875.008, Korea North, or FEBC? Yay, the Emirler engineer finally woke up. No one at HQ studio noticed anything amiss; if any human whatsoever overseeing the program feed, certainly couldn`t be bothered to turn on a radio and hear what`s there or not. Failed to change frequency from 9875 after the 2030-2125 English. I wonder what were to be heard on 9875 at 2130, when nothing is now scheduled. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [non]. 11785 & 9875, Aug 13 at 2202, NO signals direct from VOT English: something`s always erroneous at Emirler. Nor at 2226 into UTwente, but a weak 9874.9 which would be Korea North (Glenn Hauser, OK, WOR)

** U K. 9500, Sat Aug 9 at 1932, Radio Love Warbler, really neat birdcalls and other sounds mixing, on fortnightly repeat, via Woofferton, S9+30/35 into UTwente. 1958 announces address radio.love.warbler@gmail.com open carrier and off* Details here: https://www.creativefolkestone.org.uk/artists/hanna-tuulikki/ Next airings will be at 19-20 Sat Aug 23, Sat Sept 6 and Tue Sept 23 all on 9500 but differing azimuths. Maybe last supposed also to be Sat? Sept 20 or 27 (Glenn Hauser, OK, WOR)

** U S A [and non]. A few more beacons are becoming audible, August 7 at 0626+ UT:
379 kHz, RU, Russellville AR, defective sending instead of RUE
382 kHz, JBA carrier, probably YPL, Pickle Lake ON, heard before
385 kHz, JBA carrier, probably HO, HOt Springs AR, previously heard, among several others listed (Glenn Hauser, OK, WOR)

** U S A. 28411 USB, Aug 13 at 2207 OSOB is talking about antennas from northern Utah, finally 2212 ID as N7UXA, over to N4RDZ in Onalaska WA for final, unheard here. QRZ.com:
N7UXA USA flag USA, Brett R Butler, 623 SOUTH 1580 WEST, Logan, UT 84321, USA,
``JUST AN OLD RAG CHEWING HAM`` (Glenn Hauser, OK, WOR)

** U S A. VOA/Greenville developments -- On Aug 11, former Greenville technician Glenn Swiderski tells me: ``The agency allowed Greenville to get two technicians back to work. Also, Kari Lake`s right-hand and the boss of OCB are visiting Greenville next week, to see the station. Lake`s guy is pro-shortwave from what I understand. Also the new (?) 100 kW Continental rig is on site. Good things to come? Who knows. Glenn Swiderski`` (Glenn Hauser, OK, WOR)

``Just found your program this evening --- Glenn, I was tuning around the bands tonight and caught your program on WRMI 9395 kHz at 23:45 UTC {Wed Aug 6}. Very interesting information on SW listening. The signal was good with moderate fading / interference, but definitely listenable. What days and times does your program air on WRMI? I'd like to catch a full program. Best regards, Patrick Deisch``

``Patrick, You have discovered a new time - WRMI makes frequent changes. Here is my complete schedule. The current show #2306 will only get a few more airings/ #2307 becomes available in about 24 hours.

Subject: Translate reports to Spanish
Hi my name is Emilio. A few days ago open a little website for share
info about swl and others issues about radio. I started translating
their reports into Spanish and publishing them on my website:
radioescucha.com. The project is personal and non-profit. If you do
not agree with it, please let me know. Thanks.

** U S A [and non]. WORLD OF RADIO 2307 monitoring: confirmed UT
Saturday August 9 at 0300 on WTWW 5085, S9/+5 into Georgia SDR.

Not confirmed Sat Aug 9 at 1455 the 1430 on SW Gold Radio, Germany:
UTWente gets a JBA carrier locked onto 6160.310.65; DL7APJ hears only
some beeps. Maybe due to propagation: K-index 5.33, G1/R1 storms per
WWV.

Confirmed Saturday August 9 at 1600 on WRN North America stream.

Confirmed Saturday August 9 at 1731 on SW Gold Radio, Germany, 3975.001+ S7 and noisy, JBA on 6160.310.65

Confirmed Saturday August 9 after 1930 on WRN North America stream.

Almost confirmed Saturday August 9 at 1937, JBA sounds like me on WA0RCR, 1860 AM, MO into N9AZZ IL remote.

** U S A [and non]. WORLD OF RADIO 2307 monitoring: confirmed Saturday August 9 at 2100 on WRMI 9395, S9/+10 into Knoxville SDR. Preceded by gospel huxter about some event coming up for Passover *2016*, i.e. Classic Redneck Radio scheduled. I guess they are ``Christian Jews``, ``messianic``.

Also confirmed Saturday August 9 at 2230 on WRMI 15770. Very poor prop conditions prevent any signal or any more than JBA carrier at usual SDR spots, Georgia, Tennessee, Maryland, UTwente -- but JB audible S3/S5, enough to confirm into NH KiwiSDR, congrats.

``CONFIRMED: 15770 UNITED STATES (FL) WRMI at 2240 (tardy tune-in). Glenn Hauser with this week's World of Radio - by radio. Signal good on peaks, but real rollercoaster today. At least on the air (very LAME condx today). --- Fair to Good  8/9 (Rick Barton-AZ)``

Confirmed UT Sunday August 10 from 0307 on WA0RCR, 1860 AM, MO, S9+10 into N9AZZ remote in IL.

** U S A. British DX Club has issued an updated Broadcasts in English including a separate schedule of DX programs. Despite WRMI skedgrid showing WOR Sat 0930 on 9455, which I know is not true, this sked shows:
``Sat 0930 WRMI "World of Radio": 7570`` - not sure where they got that, but needs to be confirmed (Glenn Hauser, OK, WOR)

** U S A. Re WOR on WRMI scheduled as 9455 at 0930 Saturdays, but not so: ``Hi Glenn, I've heard World of Radio at 0930 Saturdays on 7570 earlier in A25 season. Peter W Hansen``. The transmitter grid shows 7570 WRMI-5 is on System D during that hour. But the System D sked shows 9455 instead. The xmtr sked shows 9455 WRMI-11 on System E = CRR during that hour. SAWA (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sat Aug 9 at *0059, WTWW carrier on, with some hum, 0100 preacher starts. 0205 check: modulation is very distorted. H2Ofall into Georgia shows worse on the lower side, but unusable on upper side either. Hope it`s fixed in less than an hour for WORLD OF RADIO. 0213 off and soon back on, much improved but still somewhat distorted (Glenn Hauser, OK, WOR)

** U S A [and non]. Pre-`AAAWWW` chex of WBCQs, Aug 8 at 2348 into NH SDR: 3265 & 5130 off. 6160.001 S5/S7 of CRI. 7490 -72 Hz = 7489.928 S9+27 of FKB. 9330.00 S9/+10 of WLCR in Portuguese. At *2355, 6160 -73

Hz = 6159.927 cut on in IS & ID, but not 5130- altho the Area 51 webcast is musicking. UT Sat Aug 9 at 0000, 7490 announces it originally aired 4/18/25: never mind, as I reported it at the time. It`s also on 9330 now. And 6160 goes to something else. At 0128, 5129.9 is on with algo, Turner? And 6160 is off again (Glenn Hauser, OK, WOR)

** U S A. 12160, Sat Aug 9 at 1700, `The Talking {sic} Machine Show` on WWCR, we resort to SW of WWCR-2 since one stream link plays the commercial over and over, and the other is dead. Normally blasts in on 12160, but weak and fadey today with propagation disturbance, K index 5.33 with G1/R1 storms per WWV (Glenn Hauser, OK, WOR)

On rare occasions, WRNO on air way late past usual close circa 0400? *Never* occupies entire registered span of 2200-1600 as in Aoki; EiBi guesses: 0100-0300 & 0300-0730 English, 0300-0430 irr. Hindi (Glenn Hauser, OK, WOR)

** U S A. 15150.000, Sun Aug 10 at 1439, WMLK is on after missing several days, S8/9+5 into UTwente where aimed and measured. First noted 1405 direct JBA S9. At 1446 S9+10 into PEI remote showing -5 Hz. 1500 sharp gives legal ID interrupting amid preaching about Yahway (Glenn Hauser, OK, WOR)

** U S A. 15150, Aug 11 at 1427, WMLK not off the air again.

17525, Aug 11 at 2206, WMLK back on air with DEJOM, S9+10 direct, gone at next check 2239, no signal into UTwente where it`s aimed, whilst 17790 WRMI audible S5/S7. Registered sked for 17525 is 1730-2230. On May 20 I noted that 17525 had not been heard since March 8. Possibly has been on sometimes but off before 2200 when I usually start monitoring.

9274.999-, Aug 11 at 2306, WMLK`s 3rd frequency is also on with hymn soprano solo, S9/+20 into UTwente. 2307 another to the tune of ``Danny Boy``. 0206 Aug 12, still on huxtering, S9+20/30 into Europe (Glenn Hauser, OK, WOR)

** U S A. 17525, Aug 12 at 2203, WMLK not off the air as DEJOM pontificates, S9+10 direct (Glenn Hauser, OK, WOR)

** U S A. 1690, Aug 13 at 0622 UT, `Red Eye Radio` mentioned. NRC AM Log of last year show only RER on 1690 is: WMLB Avondale Estates GA - Atlanta market (Glenn Hauser, OK, WOR)

** U S A. Nice sporadic E FM DX opening, August 13; I wonder if the Perseids peak encouraged it? All times strictly UT. All heard with my own ears in real time, on caradio with fender vertical antenna only, no recording, no internet access during, but researched later, main reference WTFDA FM Database, or broader searches when necessary. Some are not definite, but I do not count stations, states or anything, rather ID as much as possible FYI. Suggestions and correxions welcome. Distance from/to in km/miles added at end of each, city to city, not site to site, so approximate, and including does not necessarily make a log more definite. Each DX log a potential learning experience.
